| YoY NRR | 100% | 12.62 | Review what drove the revenue change (ridership, route count, rates) with the c next contract cycle. |

## Health Score Breakdown

Share of each category's points earned vs. missed.

**About This Report**

- **Purpose**: Client Health Command Center identifies which legacy accounts are healthy, which need monitoring, and which are at risk. For each account below target, it recommends specific next steps.
- **Scope**: Legacy accounts only: clients that have been with the firm for 2+ years and a full prior-year revenue history. New accounts  are excluded, because year-over-year retention can't be measured for them yet.
- **Time Window**: Fiscal years run July–June. This static report uses a consistent July–April year-to-date window to ensure a true like-for-like comparison across all years.
- **Data note**: Report uses synthetic data generated to preserve confidentiality.

**How the Health Score Works**

- Step 1: Measure. Each account is measured on six metrics across three categories
- Step 2: Convert. Each metric is converted to a score of 0, 25, 50, 75 or 100 using the conversion scale below.
- Step 3: Weight. Metric scores are averaged within each category, then combined using the category weights. The result is a single Health Score from 0 to 100.
- Step 4: Classify
  - Healthy: 70 or above
  - Watch: 45–69
  - At Risk: below 45
- **Ops target**: A metric meets target when it scores 75 or higher, the threshold set in the operations meeting. Any metric below 75 generates a prescription.

**Home Page: Command Center Guide**

- **Filters (top right).** Narrow the whole page to one account or one area manager.
- **KPI cards.** The total number of legacy accounts and the average Health Score, plus how many accounts are
- **Healthy, Watch (needs monitoring) and At Risk**. Each status card shows its share of accounts and its score range.
- **Client Relationship Health Score**. Every account with its Health Score and color-coded status. Click an account to filter the prescriptions below it.
- **Client Relationship Health Prescriptions**. Every metric where an account falls below the ops target. Current Gap is how far the metric must improve to reach target: percentage points, or interactions for Client Interactions. Scroll right to read the full prescription.
- **Top Issues Across Account Portfolio**. How many accounts fall below target on each metric. The longest bars are where the most accounts need help.
- **Account Portfolio Health Breakdown.** Each area manager's accounts split into Healthy, Watch and At Risk, shown as percentages so books of different sizes can be compared fairly.

**Drill-Through Feature**

- To open an account's deep dive: on the Command Center, right-click any account, in either table, and choose Drill through → Account Deep Dive. The page opens filtered to that account.
- To return: click the back arrow in the top-left corner.

**Drill-Through Page: Account Deep Dive**

- **Header.** The account, its area manager, its Health Score out of 100, and its health status.
- **Metric cards.** The account's value on each of the six scored metrics. Green means it meets the ops target; red means it's below.
- **Performance vs Ops Targets.** Each metric as a percentage of its target, where 100% means on target.
  - Green: meets target
  - Yellow: one scoring band below
  - Red: two or more bands below
- **Revenue Trend: FY24 to FY26.** A revenue bridge. It starts with FY24 revenue, adds or subtracts each year's change (green for growth, red for decline), and ends at **Total**, which is FY26 revenue to date.
- **Where the Points Come From.** How much of each category's available points the account earned vs. missed. This shows which category is pulling the Health Score down.
- **Recommended Next Steps.** The account's metrics below target, the gap to close, and the recommended action.

## Categories and Metrics

| Category | Contribution to Health Score | Metrics Included |
|---|---|---|
| Client Experience | 30% | Client Experience Score, Client Interactions |
| Revenue Retention | 45% | YoY NRR |
| Service Quality | 25% | On-Time %, Trips without Complaints, Trips without Rescues |

## Defined Operational Targets

| Metric | Ops Target (75 pts) |
|---|---|
| Client Experience Score | 95% |
| Client Interactions | 4 per year |
| On-Time % | 92% |
| Trips without Complaints | 95% |
| Trips without Rescues | 95% |
| YoY NRR | 100% |

## Metrics Conversion Table

| Metric | 0 | 25 | 50 | 75 | 100 |
|---|---|---|---|---|---|
| Client Experience Score | < 90% | 90–93% | 93–95% | 95–97% | ≥ 97% |
| Client Interactions (per FY) | 0 | 1 | 2–3 | 4–5 | ≥ 6 |
| On-Time % | < 85% | 85–90% | 90–92% | 92–95% | ≥ 95% |
| Trips without Complaints | < 90% | 90–93% | 93–95% | 95–97% | ≥ 97% |
| Trips without Rescues | < 90% | 90–93% | 93–95% | 95–97% | ≥ 97% |
| YoY NRR | < 75% | 75–90% | 90–100% | 100–110% | ≥ 110% |
